## The Players: The 10 Planets

### Part One: The Lead Roles

#### The Sun

The Sun is the center of our solar system. It generously shares its radiance with the other planets. In Astrology, the Sun is the heart of the chart. It points to ways that your relationship needs to confidently shine. Keep the fires of your Sun burning brightly and proudly together. Love will follow. Happiness will fill your minds, bodies and souls. The Sun stands for ego needs, will power and creative vitality.

Forget your own Sun signs for the moment, Tim and Faith.

Your shared Sun sign could be different than your individual Sun signs. Remember that we are talking about your combined Sun. It is the fusion of your two hearts.

#### Sun in Cancer

A Sign is a psychological process through which a planet operates. As a couple, being solarized through the sign Cancer gives your relationship a drive to establish a sense of security and emotional depth. The keyword phrase for Cancer in traditional Astrology is "I feel." This can point to a capacity to care deeply for each other. Establishing roots together helps build a sense of trust.

Have you sensed it is difficult to keep a secret from each other? If the answer is yes, it is due to the intuitive power embedded in your relationship. Each of you has the capacity to tune quickly into the needs of your partner. The safety created through feeling emotional warmth makes this a rewarding relationship. Sharing some of your innermost thoughts can bring great satisfaction.

Giving emotional support as a regular pattern facilitates communication. Trusting your instincts as a couple and as individuals helps create a strong bond.

Your shared emotional waters are as deep as the middle of the Pacific Ocean! Remember to balance the feeling side of life with some objective mental exchanges. An occasional angry upheaval is probable. The two of you will arouse some sudden profound emotional energy. If feelings of insecurity arise, you will find that some honest communication will help greatly.

It could be important to realize that this relationship is unique from previous encounters. See current partner as a new opportunity. The past can be a wise teacher. It is important to make sure previous relationships don't distort your perceptions of the present.

Home is an important theme in your lives. Each of you needs to feel your home is your castle. There could be a fondness for children, pets or plants. The two of you desire a stable home atmosphere. This is essential in feeling at home with each other. It could help at times to escape by taking a vacation. A new perspective might develop by visiting new surroundings.

Family is another key dimension of your relationship. You will need to accept the other's family members as much as possible. Loyalty to each other is something you expect.

Mood swings can appear with little notice. Emotional upsets are not the end of the world. Taking the time to reveal your emotional needs can restore equilibrium. Your psychic connection could be strong. Time apart, even for short intervals, can preserve a wonderful closeness. Some private time may help recharge your batteries. Support the individual exploration of your innermost subjective worlds.

Your creative vitality promises a wealth of imagination to explore together. Admire the unique ways each of you expresses your talents. Be supportive and you will get what you need in return!

## Sun in the Tenth House

A determination for success is accentuated. You can instill ambition and great momentum in each other! It is possible to happily share ownership in a business or other investments. You can support each other's hope to receive recognition for your abilities. You influence one another to achieve great things in life.

Your life in the public sector may be demanding and at the same time offer growth. You can fill a variety of roles, whether it is in the form of parent, job, civic leader, etc. Sharing responsibility in your relationship gives you a sense of confirmation about each other. Making time for one another creates intimacy.

Friends and strangers will likely see you as people that know what they want in life. Your lives are based on a clear commitment. Your public and private lives can be balanced with good management. Remember to be fair to each other when life gets stressful or demanding.

A lack of adaptability can cause emotional distance. Too much competition within the partnership can create instability. Respect for each other's leadership ability is a stabilizing factor. Take turns being the boss.

You are a serious couple when it comes to making your ideas become a reality. You don't like people wanting to waste your time. Discipline is something you value.

Make time for each other. The temptation to compulsively work on individual challenges can distract you from your relationship. Give one another the attention and emotional support needed. If you do, you will have a friend for life!

## The Moon

Countless song lyrics, poems and lofty dreams have been inspired through gazing at the Moon. The Moon's sign and house position represents the intimacy and feelings you share with each other. Establishing a sense of security and a home are other lunar sides of life. The Moon symbolizes the imagination you share from your inner landscapes.

## Moon in Pisces

With your relationship lunarized through the sign Pisces, there are oceans of idealism. Your minds are linked by a continuous flow of creative symbols. Your ability to read the faces and moods of one another is exceptional. You might have felt drawn together by mysterious forces or circumstances.

Shared spiritual beliefs can foster intimacy. You look for unconditional emotional support from each other. Your subconscious energies can seem like they are merged. You may have to disengage from each other's presence at times to stay grounded. There is a natural scent of romantic love in your closeness. People might refer to you as a couple with no problems, though you will not always be inclined to agree.

There is strong individual and shared aesthetic appreciation and maybe ability associated with it. Creative expression could be a hallmark of your partnership. An intuitive grasp of the intangible is at your fingertips.

Dependency needs remain in balance with faith in each other's individuality. You can't save your partner from feeling pain or frustration. You can be there to listen and offer refreshing insights.

The home can be a place in which to escape for you both. The trickling of a flowing fountain or the beauty of colorful pictures captures your need to feel unity. Your tastes in art or music will probably be

easily visible to visitors. Your residence can be a consciousness-raising experience for some people. It is where your shared dreams and visions swim freely and happily. Living near water can be satisfying.

Divine discontent can be irritating. Keep expectations for each other realistic. This makes for less tension. Avoiding responsibility or commitment will lead to emotional distance. Believe in your ability to talk openly about issues.

Let your imaginations guide you to dance creatively together. Embracing each other's highest ideals opens the door to mutual acceptance. Your faith in one another can be the confirming force that pushes you to new growth.

### Moon in the Sixth House

The two of you need to know you can work together. Taking on projects helps you establish greater closeness. The two of you share the tenacity to finish what you start. Sharing the load when difficult challenges come along makes you love your partner. You tend to like well-organized people.

There is a tendency to care greatly about each other's health. You will probably encourage one another to exercise and watch your diet. Cooking and eating the right food might be your motto.

Your home life needs to follow a schedule in order for the two of you to feel relaxed. There are probably certain days you need to forget about keeping each room perfect. You can't help but desire a sense of order in your living situation. It allows you to remain calmer and think clearer. You need to be able to depend on one another to contribute equally in maintaining a place of residence.

Developing job skills could mean a lot to each of you. Encourage one another to keep improving their chances to get into the career of choice. There is a possibility you might even be able to operate a business together successfully.

What do you need to watch out for in your relationship? Criticism with a capital "C". Controlling a sarcastic tongue is a good policy. You will notice the personal habits of each other that you find irritating. Tread this territory sensitively. A taking care of business type of talk does better than excessive nagging. Perfection is a goal that is hard to hold onto. Try to reach the middle ground together that is reasonable.

Let your intuition guide you to look beyond your differences. Help each other go beyond self-doubt. Serving each other's highest goals makes being together more pleasurable.

### The Ascendant

We are taking a short intermission from the planets to introduce you to an additional key part of your relationship. The Ascendant or Rising Sign is the sign that starts the 1st house of the chart. The Ascendant is one of the twelve signs with a special role serving as an ambassador. It acts as a persona or mask for an individual or a relationship. The Ascendant is the personality through which we interact with the world.

The Ascendant is the way we appear to others. It is their first impressions of us. You meet someone and he or she seems to be confident, shy, talkative, cheerful, etc. The same can be said for a couple. The two people might seem theatrical, dreamy, or businesslike.

### Ascendant in Libra

People could see the two of you as diplomatic and outgoing types. Fairness through carefully weighing opposing viewpoints is a regular occurrence. A flair for dressing colorfully and in the right way for an

occasion is typical of you. It is impressive how you manage to fulfill several social obligations and maintain a smooth way of interacting with others. You can feel like soul mates with a shared purpose. Entertainment tastes can be a particularly fun way of spending time together. You can help one another stay cool during all forms of emotional weather. Your calendar can get creative in making time for romantic atmospheres.

### The Part of Fortune

Your Sun, Moon and Ascendant can be combined or blended into a cosmic alchemy, known as the Part of Fortune. This is not a planet, but rather a reference point in the chart. The Arabian astrologers of the Middle Ages are given credit for its discovery. The Part of Fortune is said to show where we can expect to find good fortune and even luck. Do we really need to take a look at something from the long ago past, if it will serve as nothing more than a relic to hang on the wall? A translation of this ancient symbol into modern terms makes this symbol worth investigating. Why? Because it can give clues to special paths that lead to harmony and a spirit of feeling united.

Think of the Part of Fortune as the potential corridor leading to Opportunity. It is a way to read the pulse rate of the partnership, indicating ways to reach a shared sense of fulfillment.

### Saturn

Astronomers say that if Saturn fell from the sky it is light enough to float on an ocean. Some people dread hearing about where Saturn is in their chart more than they do going to the dentist! The fortune tellers of old always painted this planet with "heavy" interpretations. They presented this planet as being a god of doom and gloom. In modern astrology, this motif denotes endurance and ambition. In mythology, Saturn was Chronos, the god of time, reflecting the wisdom that can be learned from past experiences. ### Midheaven

Just as the Ascendant was described as a sign serving a special purpose, there is a sign referred to as the Midheaven, with a special mission of its own. This is the sign at the beginning of the 10th house of a chart. A palm reader can interpret the career line embedded in your hand. Think of the Midheaven or 10th house sign as a type of career line in your chart. How you two conduct business in the world and your work interests are shown here.

## Part Three: Planetary Aspects

It's time now to mention another technical side of your report. (If you don't like technical explanations, skip right to the Aspect Interpretations). You have already been introduced to the ten planets. Certain planetary pairs in your chart have a special relationship to one another due to particular angular distances separating them, known as aspects. You could almost say the two planets in an aspect travel and interact together along the same circuit. The following aspect interpretations or descriptions will be listed under five types. Two are known as the soft aspects: the sextile (60 degrees) and trine (120 degrees). These two aspects generally point to more gentle themes found in your relationship. They indicate a lower voltage of electricity and produce less friction. The planets involved in a trine or sextile are more likely to be areas where you flow together without much effort.

The more hard or intense aspects are the conjunction (0 degrees), square (90 degrees) and opposition (180 degrees). They require our understanding and will point to key ways the two of you must communicate and negotiate. Planets that are part of an intense aspect will show how you energize one another. These higher voltage aspects don't mean you want to avoid them, but more so to develop a true understanding of how to use this energy constructively. "Soft" does not mean good and "intense" does not imply bad. It is often the more intense aspects that deepen the bond of a partnership. The interpretation of any planetary aspect depends greatly on the symbolism of the two planets forming an aspect.

It might be helpful to keep some key words in mind for the aspects. The sextile is a promise of Excitement and Eagerness. The planets in this aspect give clues how your energies support one another. The trine is a special Harmony shown by two planets. There is often positive regard for one another that comes spontaneously. We expect good things to be delivered in the trine.

The conjunction is where two planets are joined at the hip. There is a Fusion or powerful blending of these two energies. The square can reveal where you will encounter Friction in your relationship. Pay special attention to these aspects, as they are opportunities for growth as much as discord. The opposition requires a Balancing act. It is similar to a seesaw. Each of you may find yourselves taking turns in acting out one planet or the other.

It might be helpful to refer to Parts One and Two to refresh your memory about the meaning of the Planets, Ascendant and Midheaven, as you read the aspects that follow. Remember that it is usually the more intense aspects that stretch us the most. The more positively you use these challenging planetary combinations the greater will be your understanding of each other.

Note that a planet might be involved in several different aspects. In other words, the planet is interfacing its energies with numerous other planets (or even with the Ascendant or Midheaven). A "heavily aspected planet" plays a key role in your relating to each other.
